Network Construction with One Single Instrument

LAN CABLE HiTESTER 3665-20
Optical/Telecom Measurement

- Wiremap
  Detect Split Pairs with Wiring Check
- Cable Length
  Get NVP-Enhanced Measurement Accuracy
- Direction
  Identify Up to 21 Cable Destinations

http://www.hioki.co.jp/
Both straight-through and crossover cables (10/100BASE, 1000BASE-T and 1000BASE-TX) can be checked.

**PASS Display Examples**

Both straight-through and crossover cables (10/100BASE, 1000BASE-T and 1000BASE-TX) can be checked.

**FAIL Display Examples**

- **Reversed**: Pins 1 and 2 are reversed.
- **Transposed**: Pins 3 and 6 have been incorrectly paired with Pins 4 and 5.
- **Open**: Pin 1 is open at a distance 7 meters from the LAN cable tester.
- **Short**: Pins 1 and 2 are shorted at a distance 10 meters from the LAN cable tester.
- **Split Pair**: A very common mistake - twist pairs Pins 3+6, and Pins 4+5, have been incorrectly connected.

**Caution!**

- **Proper Wiring**: LAN cable wires should be connected as shown in the diagram above, such that Pins 3 and 6 are twisted.
- **Split Pair**: A "Split Pair" is detected when Pins 3 and 6 are not twisted and paired together as shown above.

**Super-sensitive Detection**

**Fully Compatible to CAT6 LAN Cables**

Detect the existence of shields or check for shield integrity.

**1 Wiremap**

For wiring confirmation and locating broken wires after installation. Quick PASS/FAIL reading helps you complete your work faster.

**Wide LCD Screen**

Check all parameters such as wiremap, direction and cable length at a glance.
2 **Direction**

Locate up to 21 unique cable destinations.

Have you ever had trouble installing additional cables?

Take advantage of the conveniences offered by the tester's capabilities to check wiring while confirming multiple cable destinations.

You will never need to go back and forth again just to change the terminators.

Up to 21 terminators can be connected (additional terminators sold separately.) Convenient for confirming the connection destinations of multiple cables.

3 **Cable Length**

Measure for cable length and detect the location of broken or short-circuited wires.

The NVP setting is a cable-length compensation function that enhances the accuracy of cable length measurements.

Accuracy with NVP activated:

- ± 4% rdg., ± 1m
  
  (vs.previous HIOKI model: 15% rdg., ± 1m)

- NVP (Nominal Velocity of Propagation) is the ratio of the speed of a signal in the cable relative to the speed of light in a vacuum.

- NVP differs according to the type of cable and the manner in which the wire pairs are twisted, so measurement accuracy can be enhanced by setting the NVP value for the particular type of cable to be measured.

**Activating the NVP function is as simple as 1-2-3**

**Preparation**

Prepare a reference cable using a known length of the same type as that to be measured (at least 100-meter length recommended).

**Measurement**

On the Settings screen, select “Length Adjust.”

**Adjust**

Press the TEST button to measure the (already known) length of the reference cable.

**Calibrate**

Calibrate the display to the measured reference cable.

**How Can Split Pairs Affect the Network?**

- Communication speed can be suppressed - 100BASE signals may reach only 10BASE speeds.
- Excessive communication errors - data transfer may be intermittent or completely inhibited.
- Cables miswired in this way are more susceptible to electrical noise.

Split pairs appear to be properly connected to the untrained eye, and cannot be detected with continuity testing.

To properly check LAN cable wiring, a tester capable of detecting split pairs is indispensable.

The HIOKI 3665-20 can do the job for you properly and accurately by also detecting split pairs.
Specifications (@ 23 ±5 °C, 80% RH or less, non-condensating, with battery indicator unit)

Measurable cables
- Twisted-pair cable
- 100 Ω characteristic impedance, shielded and unshielded, CAT 3, 4, 5, 5e and 6

Compatible connectors
- RJ-45 plugs

Measurement Items

- **[Wiremap]**
  - Wiring condition and shielding can be confirmed using the HIOKI TERMINATOR 9690
  - Detectable errors: open, short, reversed, transposed, split pairs and other miswiring

- **[Cable Length]**
  - Measurable lengths: 2 to 300 m, 6.6 to 984 ft
  - Measurement accuracy: ±4% rdg. ±1 m, ±4% rdg. ±3.3 ft
  - Display resolution: 0.1 m

- **[Destination]**
  - Up to 21 cables can be identified using the supplied TERMINATOR 9690 and optional Models 9690-01 to 9690-04 to test multiple cables simultaneously

Display
- 128 × 64 dot matrix LCD (with backlight)

Functions
- **Auto Backlight:** pressing a button turns the backlight on (it turns off automatically after about 20 seconds)
- **Beeper:** sounds when pressing buttons and when measurement results are displayed
- **Energy-Saving Mode:** enter into energy-saving mode after measurement (and resume when the TEST button is pressed)
- **Auto Power Save:** the 3665-20 turns off automatically about 10 minutes after the last button press
- **Battery Check:** Battery indicator blinks when voltage falls below 2.4 V
- **Unit Switch:** Select between meters or feet

Compliance Standards
- Safety Standard: EN61010-1:2001 Pollution Level 2

Allowable Input
- 3.3 V peak (between RJ-45 pins)

Operating Temperature & Humidity
- 0 to 40 °C, 80% RH or less, non-condensating

Storage Temperature & Humidity
- –10 to 50 °C, 80% RH or less, non-condensating

Power Source
- Two AA-size (LR6) alkaline batteries

Maximum Power Consumption
- 1.4 VA

Operating Time
- Approx. 50 hours (measuring once per minute)

Size & Weight
- Approx. 85 W × 130 H × 33 D mm, approx. 160 g

---

**LAN CABLE HiTESTER 3665-20**
(Includes TERMINATOR 9690, CARRYING CASE)

**■ Supplied Accessories _________**

- TERMINATOR 9690
- CARRYING CASE
  (Stores the HiTESTER 3665 and TERMINATORs 9690)

---

**■ Options _________**

- TERMINATOR 9690-01 (IDs 1 to 5)
- TERMINATOR 9690-02 (IDs 6 to 10)
- TERMINATOR 9690-03 (IDs 11 to 15)
- TERMINATOR 9690-04 (IDs 16 to 20)
- CARRYING CASE 9249 (stores the 3665-20, 9690 and 9628 together)
- LAN CABLE 9628 (1 m long, with RJ-45 plugs)
